

Lexicon Pharmaceuticals Announces FDA Advisory Committee Meeting for Zynquista

August 21, 2024

Advisory Committee Meeting Scheduled for October 31, 2024; PDUFA Goal Date Remains December 20, 2024

Lexicon Seeks Approval for ZYNQUISTA™ (sotagliflozin) as an Adjunct to Insulin Therapy for Glycemic Control in Adults with Type 1 Diabetes and Chronic Kidney Disease

The Woodlands, Texas, August 21, 2024 - [Lexicon Pharmaceuticals, Inc.](#) (Nasdaq: LXRX), today announced that the U.S. Food and Drug Administration (FDA) expects to convene a meeting of the Endocrinologic and Metabolic Drugs Advisory Committee for Zynquista™ (sotagliflozin) as an adjunct to insulin therapy for glycemic control in adults with type 1 diabetes and chronic kidney disease (CKD) on October 31, 2024, with no change to the PDUFA goal date of December 20, 2024. According to the notice provided, the FDA intends to make the background materials available to the public no later than two business days before the meeting.

"Lexicon looks forward to the opportunity to share the breadth of evidence that has been generated to support the favorable benefit/risk profile of sotagliflozin for glycemic control in people with type 1 diabetes and CKD," said Dr. Mike Exton, chief executive officer and director.

About Lexicon Pharmaceuticals

Lexicon is a biopharmaceutical company with a mission of pioneering medicines that transform patients' lives. Through the Genome5000™ program, Lexicon's unique genomics target discovery platform, Lexicon scientists studied the role and function of nearly 5,000 genes and identified more than 100 protein targets with significant therapeutic potential in a range of diseases. Through the precise targeting of these proteins, Lexicon is pioneering the discovery and development of innovative medicines to treat disease safely and effectively. Lexicon has commercially launched one of these medicines, INPEFA® (sotagliflozin) in the United States, and has a pipeline of other promising drug candidates in discovery and clinical and preclinical development in neuropathic pain, diabetes and metabolism and other indications. Safe Harbor Statement

This press release contains "forward-looking statements," including statements relating to the therapeutic and commercial potential, research and clinical development and regulatory status of sotagliflozin in type 1 diabetes. In addition, this press release may also contain forward looking statements relating to Lexicon's financial position and long-term outlook on its business, growth and future operating results, discovery and development of products, strategic alliances and intellectual property, as well as other matters that are not historical facts or information. All forward-looking statements are based on management's current assumptions and expectations and involve risks, uncertainties and other important factors, specifically including Lexicon's ability to meet its capital requirements, successfully commercialize INPEFA® (sotagliflozin) in heart failure, conduct preclinical and clinical development and obtain necessary regulatory approvals of sotagliflozin in type 1 diabetes and other indications, LX9211, LX9851 and its other drug candidates on its anticipated timelines, achieve its operational objectives, obtain patent protection for its discoveries and establish strategic alliances, as well as additional factors relating to manufacturing, intellectual property rights, and the therapeutic or commercial value of its drug candidates. Any of these risks, uncertainties and other factors may cause Lexicon's actual results to be materially different from any future results expressed or implied by such forward-looking statements. Information identifying such important factors is contained under "Risk Factors" in Lexicon's annual report on Form 10-K for the year ended December 31, 2023, and other subsequent disclosure documents filed with the Securities and Exchange Commission. Lexicon undertakes no obligation to update or revise any such forward-looking statements, whether as a result of new information, future events or otherwise.
